Some things to know before you order chips: Chips are provided when available and at no charge, therefore there is no guarantee of satisfaction. This includes, but is not limited to, the quality of the chips, the timeliness of delivery or availability. Chips may consist of more than one species of tree and may contain leaves or pine needles. A load size may vary from 8 to 24 yards, therefore the exact area coverage cannot be determined. Be aware that we cannot dump chips in streets, drainage areas, public access areas, under power lines or low hanging tree limbs. Caldwell is unable to remove chips once they are delivered and does not accept responsibility for damage which may occur to lawns, patios, driveways, sidewalks, sprinkler systems, or other below ground objects.
